**ARTISAN CANDLES  
WITH A PURPOSE**

**THE SCENTSABILITY EDITION**

# BROWSE OUR CANDLES

Each of our candles is handmade with love by our team of talented artisans. Shop our selection of beautifully crafted candles and give a gift with purpose!

# OUR MISSION

At ScentsAbility, our company's mission is to provide job training, employment, and supported housing for adults living with intellectual and developmental disabilities (I/DD). We help our artisans realize their full potential and create beautifully crafted artisan scented candles.

# OUR PHILOSOPHY WORK – LIVE – PLAY

To provide the work component, giving our young adults with IDD a creative and supportive workplace. To provide a supportive home addressing independent living, health care, nutrition, physical fitness, activities of daily life, and the emotional needs of our young adults. To provide inclusive activities in the community and help our young adults engage with friends, build social skills, and contribute to their community.

# OUR STORY

We founded ScentsAbility in 2009, based on a mutual love for our daughters with intellectual and developmental disabilities (I/DD). When individuals with I/DD finish high school, they are faced with distinctive issues such as loss of federal funding, an increase in isolation, and limited choices for a purposeful day. ScentsAbility is an innovative social enterprise that serves as a source of sustainable income and life skills for our employees and participants. Started as an alternative to institutionalized and mindless tasks, ScentsAbility provides adaptive strategies to ensure adults with I/DD achieve success, offering solutions that help them thrive.

In 2013, ScentsAbility transitioned to a non-profit organization to advance our mission of providing work opportunities for adults with I/DD.

In 2015, ScentsAbility was presented with a Congressional Proclamation in recognition of our Organization's groundbreaking work with young adults with I/DD. In 2017, ScentsAbility was honored at the annual National Candle Association (NCA) Expo for the products and possibilities we have produced. In addition, ScentsAbility was asked to be the Key Note Speakers, spreading our message of inclusion and purpose to several hundred top executives in the candle industry.
